

Year 5 Homework - Summer 1

Activities you must try:

Maths:

- Practice your timestables daily
- Practice every day maths life skills (telling the time, counting money and working out change).
- General arithmetic which can be done via Mathsbot.com.

Reading:

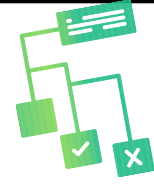

- Ensure you are reading at least 5 times a week and recording it in your home/school diary.
- Practice comprehension skills - when you are reading make sure you are being asked questions about what is being read.

Spellings:

- Spellings will be posted on ClassDojo weekly if you would like to practice them at home to support the learning in school.

Activities you should try:

Science:

- Materials Hunt at Home - Find 5 objects at home made from different materials. For each object, write:
What it is
What material it's made from
One property (e.g. waterproof, flexible, strong).
 - Materials Fact File:
Choose one material (wood, plastic, metal, fabric, glass).
Include:
Where it comes from
Two properties
Two everyday use

RE:

- Compare at least 2 different places of worship. Create your findings in a creative way.
- Design a Sacred Space:
Imagine you are an architect designing a place of worship.
Include:
A labelled drawing
At least 3 features
A short explanation of how the building helps people worship

Activities you could try:

Geography:

- Create a simple model of a coastline using junk materials (cardboard, foil, sand, pasta, cereal). Label at least 4 features.
- Draw a comic strip showing a river's journey from: source → mouth.

Art:

- Create your own Greek mythical creature that Odysseus might have come across on his journey home after the Trojan war.
